Remote – Open to US, Canada, EU and Middle East

PROFESSIONAL SUMMARY

Web Developer with 6 years of experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Proven track record of leading frontend migrations, architecting reusable component systems, and delivering eCommerce, SaaS, and CMS platforms for international clients. Experienced team lead who has mentored junior engineers and managed delivery timelines. Actively leverages AI-assisted development tools and agent workflows to accelerate engineering output. Seeking a remote senior or lead frontend role with a forward-thinking team.

WORK EXPERIENCE

Senior Frontend Developer

Feb 2025 – Present

InsuranceMarket.ae · Remote

- Led full migration of company website from WordPress to Next.js, reducing page load time by ~40% and improving Core Web Vitals scores.
- Architected reusable component library using React.js, TypeScript, and Tailwind CSS, cutting new feature development time by 30%.
- Engineered a Figma Make kit using private npm packages to bring the production design system into AI-generated prototypes, cutting feature lifecycle time by up to 50% and eliminating component inconsistencies between design and code

Team Lead & Senior Software Developer

June 2024 – Feb 2025

SparkoSol · Hybrid

- Led a team of 4 engineers developing multimedia marketing platforms and healthcare-related web applications.
- Built scalable full-stack solutions using Next.js, React.js, Node.js, and MongoDB, serving 10,000+ monthly users.
- Managed sprint planning, code reviews, and on-time delivery; mentored 2 junior developers to mid-level proficiency.

Software Developer

Sep 2022 – June 2024

Inspon Technologies · Remote

- Developed and shipped Shopify and Wix plugins using React.js, Next.js, and TypeScript for international clients.
- Built a large-scale recruitment management system for German clients, handling 5,000+ candidate records with MongoDB and Nodejs backend.

Associate Software Developer

Apr 2020 – Aug 2022

Eforte Solutions · On-site

- Built business dashboards, financial forecast tools, and marketing landing pages using React.js and Next.js.
- Collaborated with UX designers to implement pixel-perfect, responsive interfaces improving user retention.
- Delivered 10+ client-facing web solutions across SaaS and eCommerce domains within tight deadlines.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Web Performance Optimization, Core Web Vitals

UI Libraries: Tailwind CSS, Ant Design, Shadcn/UI, Base UI, Chakra UI, CSS Modules, Styled Components

State Management: Redux Toolkit, React Query, Context API

Backend / APIs: Node.js, Nest.js, REST API design, GraphQL, Webhooks

AI & Automation: Claude Code, AI-assisted development, Agentic workflows, MCP integrations, Prompt engineering, LLM tooling

DevOps / Infra: AWS Lightsail, Nginx, Git, GitHub Actions, CI/CD pipelines, Vercel, Docker (basics)

Databases: MongoDB, PostgreSQL

Platforms: Shopify, Wix, WordPress, Figma

PROJECTS

ZeroSlip zeroslip.co

AI-powered retail engagement platform with smart receipts, CRM, and loyalty rewards. Built with React.js, Next.js, and Node.js. Personalizes every customer touchpoint online and offline.

RewardBee rewardbee.co

Smart rewards platform integrated with ZeroSlip. Personalizes rewards using customer activity data and provides merchants a data-driven analytics dashboard. Stack: React.js, Next.js, MongoDB.

SocialFlows socialflows.io

Applicant management system built for social recruiting. Streamlines the hiring process with automated filtering and candidate tracking. Stack: React.js, Node.js, PostgreSQL.

Checkeden checkeden.com

Web app for organizing and managing business technical processes. Personal side project. Stack: React.js, Next.js, Node.js, MongoDB, GraphQL, Ant Design.

EDUCATION

Bachelor of Science in Software Engineering

University of Karachi

Jan 2016 – Jan 2020
